EXPERIENCE

Software Engineer Intern   March 2024 - Present
TipTop Technologies   *Remote*

- Developed a web application for user feedback on organizations, enabling employees to enhance service quality based on feedback.
- Integrated an AI chatbot for customer support, providing real-time answers and increasing customer engagement.
- Developed a web API for seamless user registration integration on client websites, leading to a user base increase of over 100
- Collaborated with the client's language learning platform team to enhance their chatbot, improving its usability and intuitiveness, thereby extending user session times.

Teaching Assistant   Sep 2022 – Dec 2022
CUNY Hunter College   *Introduction To Computer Science*

- * Mentored hundreds of students in Python and C++, significantly improving their project and test grades.
- * Led discussion sessions mentoring 10-30 students in Python and C++, resulting in significant improvements in their project and test grades.

EDUCATION

Hunter College   **Bachelor of Science in Computer Science**
695 Park Ave, New York, NY 10065

- * Relevant Courses: Data Structures and Algorithms, Discrete Structures, Computer Architecture, Graph Theory, Operating Systems, Computer Theory, Calculus 2, Statistics

PROJECTS

Lock-In   *React, NodeJS, ExpressJS, Tailwind CSS*   May 2024 – Present

- Developed a website featuring task mapping functionalities to assist users in building good habits and achieving long-term goals efficiently.
- Implemented a grouping feature enabling users to collaborate on shared tasks, resulting in streamlined communication and increased coordination.
- Developed a shared chat platform to foster community building and enhance productivity for users.

aScraper   *Axios, Cheerio, TypeScript, React, TailwindCSS*   Jan 2024 – Mar 2024

- Developed a web scraper for Amazon.com to monitor selected item prices, facilitating automated email updates based on predefined price thresholds.

DominosBot   *Python, Chromium, Puppeteer, Selenium*   Jan 2024 – Mar 2024

- Developed an automated python script to obtain free pizza codes from domino's events, allowing users to effortlessly receive pizzas to save both time and money.

Internship Tracker   *Python, FastAPI, JavaScript, Node.js, Discord.js*   Jan 2024 – Mar 2024

- Developed a Discord bot to streamline the internship application process by providing real-time notifications of new internship postings, enhancing user convenience and ensuring immediate updates.

TECHNICAL SKILLS

Languages   : C++, C#, C, Python, Java, JavaScript, TypeScript, SQL

Other Skills   : AWS, HTML, CSS, NextJS, ReactJS, NodeJS, TailwindCSS, Yarn, Unity, FastAPI

Certifications : AWS CLF-C02, Network Fundamentals
